

Building Our Future, Our Way

Community-led projects driving self-determination through innovation, culture, and technology.

Photo Studio Journey

Community-controlled visual storytelling that puts cameras in the hands of Palm Islanders to document their own stories, culture, and daily life.

2023: Studio established

2024: Youth program launched

2025: Exhibition tour

Elders Knowledge Trip

Connecting Elders with communities across Queensland to share knowledge, strengthen cultural ties, and document oral histories for future generations.

2024: Planning & consultation

2025: Trip completed

Local Server Initiative

Building digital sovereignty through community-owned infrastructure that keeps data on Country and provides reliable connectivity.

2024: Hardware deployed

2025: Community training

Storm Recovery Documentation

Documenting community resilience and recovery efforts after severe weather events, creating a living archive of strength and adaptation.

2024: Documentation began

2025: Archive published

Digital Service Centre

Expanding digital literacy and access for all Palm Islanders through a dedicated technology hub with training programs and support services.

2025: Feasibility study

2026: Construction planned

"When we tell our own stories with our own technology, we keep our culture strong for the next generation."

— Community Elder, Palm Island
